

B³

1. (Amended) A golf laser aid device comprising:
a housing having a laser; and
a means for affixing the housing to a location on a golfer's body,
wherein the laser emits a laser beam that points in a line directly toward an
external reference for providing the golfer with a swing alignment reference
separate from the golfer's body.

B⁴

6. (Amended) The device of Claim 5, wherein the fastening means
comprises an adjustable velcro strap.

B⁵

8. (Amended) The device of Claim 1, wherein the location on the
golfer's body is an article of clothing worn by the golfer.

11. (Amended) The device of Claim 1, wherein the external reference
is a target.

B⁶

12. (Amended) The device of Claim 1, wherein the external reference
is a point of reference directly on the ground in between the golfer's feet.

13. (Amended) A golfer's aid, comprising:
a means for providing an active comparison with an external reference,
the external reference being separated from a golfer's body; and

B6
concl.

an affixing means for affixing the means for providing an active comparison with an external reference to the golfer's body;

wherein the active comparison provides the golfer with an indication regarding how his swing is aligned before, during or after a golf swing.

B7

16. (Amended) The aid of Claim 13, where the indication is a visual reference.

17. (Amended) The aid of Claim 13, where the indication is a sound signal indicating proper stance.
